

## Red Rabbit **Local, Organic** Meal Program

With our **Local, Organic** menu, we bring the freshness and traceability of a farmers market to your child's school lunch. This premium menu features food that is **responsible, transparent** and **seasonal** all while introducing new foods and flavors to kids.

We partner with local farms that use sustainable growing methods, because building relationships with our producers allows us to understand where our food comes from and how it's grown. Buying food that is in season guarantees optimal freshness while reducing our carbon footprint, making it good for our taste buds and the environment!
